

Wonderful Life

From Smallfoot

By Wayne Kirkpatrick and Karey Kirkpatrick

Verse 1:

Take a look around and see the world we think we know,
And then look closer.

There's more to life than meets the eye,
A beauty to behold.

It's all much bigger than we know.

It's only just beginning to unfold, so let it all unfold.

Chorus:

Far beyond all reason in your mind,

There's a world mysterious there for you to find.

All these questions that we always have,

All we are is curious. There's nothing wrong with that.

So, go 'round ev'ry corner, search ev'ry part of the sky.

'Cause a life that's full of wonder

Is a wonderful life.

Oh-----

Verse 2:

Dig beneath the surface, find the lessons there to learn,

And then dig deeper.

Fee your intuition, don't leave any stone unturned.

Be a seeker of the truth.

Listen when you hear it calling you.

You know it's calling you.

Ending:

Oh_____ is a wonderful life,

is a wonderful life, is a wonderful life.
